Pomona Ship C. O. D. Prepaid

Freight, Express and Postage

We Trust You. No cash required to apply on account when ordering shipped C. O. D.

All Orders of \$7.00 and over we prepay Express and Freight charges to the following list of states.

Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

To all other points on orders of \$7.00 and over we prepay one-half of the transportation charges.

To all who prefer to send Cash with Order a 6% discount will be allowed.

NO DISCOUNT ALLOWED ON C. O. D. ORDERS

Order Trees Early

Wherever you live it pays to order early. Send in your order just as soon as you know what you want **Pomona method of shipping C. O. D.** and requiring no cash with order makes it convenient for you to do this, and we want you to get your trees and plant them as soon as the weather conditions and the preparation of your land will permit, either spring or fall. It is merely a question of doing it.

Our Shipping Season

We pack and ship all winter to Southern States. Our regular Spring packing and shipping season usually opens here about the first of April, and continues into the month of May. The planting season is not regulated by any particular month or day, nor by the state of vegetation where the planting is to be done, but by the condition of the trees to be planted. Hence, trees can be sent with safety from Dansville, N. Y., to localities several degrees south, even if they do not arrive until the ordinary transplanting season in that locality is passed.

How to Remit

If you prefer to send remittances with order it should be made by Check, Post Office Money Order, Express Money Order, Draft on New York Bank or Registered Letter. We disclaim all responsibility unless remittances are made as above directed.

No. 2418

STATE OF NEW YORK

Department of Farms and Markets

DIVISION OF AGRICULTURE

Certificate of Inspection of Nursery Stock

This is to certify that the stock in the nursery of the Pomona United Nurseries, Dansville, County of Livingston, State of New York, was duly examined in compliance with the provisions of section 305 of the agricultural Law and it was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale, or other dangerously injurious insect pest or pests. This certificate expires Sept. 1, 1923.

Dated Albany, N. Y., Sept. 1, 1922.

BERNE A. PYRKE, Commissioner.

By GEO. G. ATWOOD, Director Bureau of Plant Industry.

Propagated Where the Best Trees Grow

Introduction

It is with pleasure that we again greet our many customers and friends. Last Spring, for the first time we met you as **Pomona United Nurseries** which was a consolidation of **Wells' Wholesale Nurseries**, **Sheerin's Wholesale Nurseries** and **Pomona Nurseries** brought about through the financial co-operation of several of Dansville's leading business men which tends towards greater economies of management and adds greatly to the facilities and strength of the business.

The active management is under the charge of F. W. Wells, who has been actively interested in the nursery business for thirty-two years as grower and seller of nursery stock direct to the planter.

In making this consolidation we were conscious of the fact that by far the most valued asset of any concern is its satisfied customers and it was in full confidence that the list of customers of the nurseries consolidated would continue loyal to the new concern that we were prompted to engage in the enterprise.

And we wish to thank many of the former customers of the firms mentioned for their loyal support as our business during the past Spring greatly exceeded our expectation, which we know was due to the co-operation of friends.

Recognizing the fact that in mail order business in general there is a growing tendency toward the C. O. D. method of delivery, we were the first nurserymen to adopt the policy of offering to deliver all orders on a C. O. D. basis.

REFERENCES

Notwithstanding the fact that it is our policy to sell on a C. O. D. delivery basis we cheerfully refer you as to our responsibility to any bank or business man here in Dansville, or if desired we can doubtless refer you to customers in your immediate vicinity.

Big Bend, W. Va.

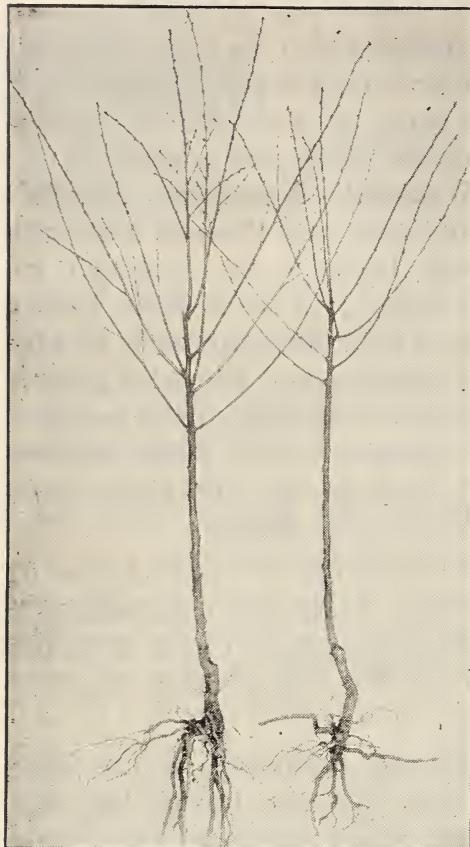

Pomona United Nurseries, Dansville, N. Y.

Gentlemen:—I received my order in good shape. I will surely recommend your method of doing business to my friends. By your method of packing you can ship trees all summer.

Yours truly,

TOM COLLINS.

Pomona's Dansville Grown Trees

*Pomona Two Year Trees
(Reduced)*

Three and four year old trees might be somewhat larger but do not give satisfactory results. No first class nurseryman offers three and four year old trees. Trees that remain in the nursery row that long are bound to be stunted by over crowding, and they do not give satisfactory results. Prof. Paddock and others say: "The age of the tree at the time of setting seems to have little to do with the age at which the orchard comes into bearing, so that one really saves nothing in setting trees too large to start with." Plant either one or two year old trees. Good orchards have developed from both.

Two Year Trees

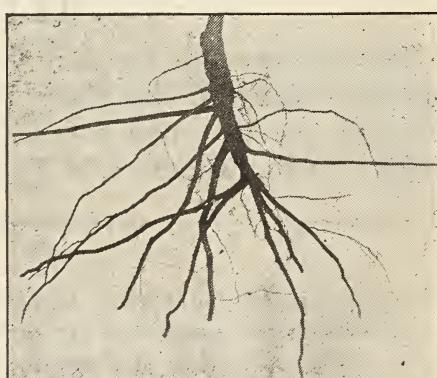

Most orchardists prefer two year old trees and buy them from us year after year. Prof. Waugh says: "Some planters prefer one year old stock, and when it is large and well grown it is almost, or quite as good, as two year old stock. For the most part, however, two year old stock is to be recommended. Anything older than two years is strictly undesirable."

Root Growth. Note the large, vigorous, well balanced roots of Pomona Dansville grown trees. This development is due to our superior soil and special method of culture. It is impossible to secure roots like these without the right methods of propagation and culture. This done at the right time not only to give the tree the right amount of growth, but force the roots to develop and spread.

There is a difference in trees. No two are alike, just as two dairy cows may have the same general appearance, yet one may be worth several times as much as the other as it nets the owner a larger profit while the other does not earn her feed, so may there be an equally great, if not greater difference in nursery stock—with one exception, the unprofitable cow can be sold while the unprofitable orchard can be disposed of only by pulling it out. **Pomona** trees have all the qualities which make early bearing, long lived and productive orchards. They are grown and handled in a thorough manner from the time the stock is planted until the trees are delivered to you. Many men who plant an orchard have but a vague idea of what constitutes a first class tree. Such a man can investigate carefully and buy from a reliable nursery—a nursery like the **Pomona United Nurseries** whose manager's life work has been growing trees for business and home orchards the past thirty-two years and who is personally acquainted with orchard and garden requirements in every part of the union. But the experienced fruit grower, the man who knows a good tree, and then plants a second class one because it is cheaper, is to be pitied. Cheap trees are seldom, if ever, a bargain. The planter should insist having first class trees and be willing to pay a fair price for them.

What Age Trees to Plant

We grow and sell both one and two year old trees. **Pomona** Trees are as thrifty and vigorous as is possible to grow them. We prepare our land, cultivate and work with the trees so that we practically control their developments. In buying trees, please keep in mind that it is the most vigorous individual trees that are the best.

Note these strong, spreading, well-developed roots, the product of Pomona's method of cultivation.

One Year Old Trees

One year old trees are preferred by many of the Western and Eastern planters. A one year tree to be satisfactory must be grown just right. Many nurserymen lack the soil and experience to grow good one year old trees, and for that reason they have recommended and listed two and three year old trees. **Why plant one year trees?** Prof. F. C. Sears of Massachusetts Agricultural College, says: "Personally the writer is rather strongly in favor of the one year tree for the following reasons: It costs less. Only thrifty trees are salable at one year. The trees can be headed at any desired height. It will stand transplanting better."

Other Reasons

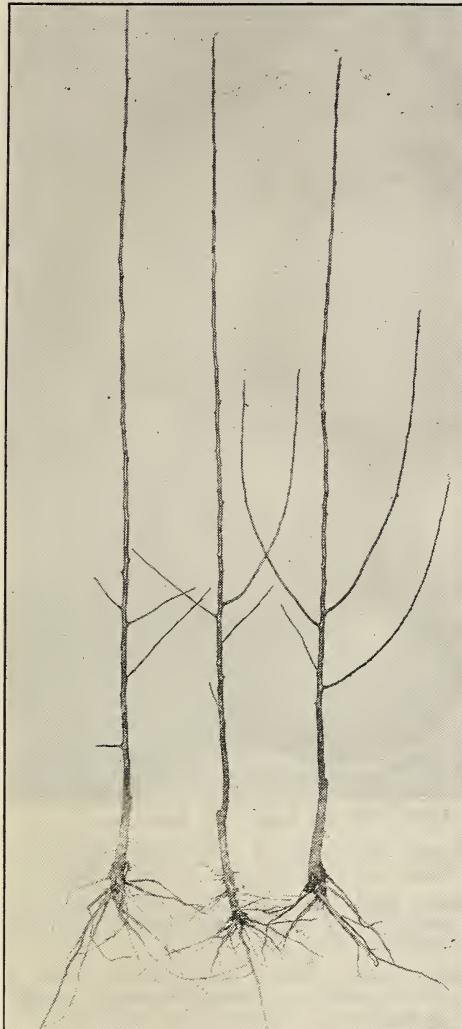

Successful fruit growers and government experts who have made tests prefer a well grown one year old tree. They can be cultivated close the first year without barking the limbs; are less apt to lean with the prevailing winds and when properly cared for they bear fruit as soon as older trees. The one year old tree is a straight whip with few if any side branches. Note the accompanying photograph showing our one year old apple trees. We call your attention to the strong, stocky bodies and vigorous roots.

Mature Trees Insure Your Success

We grow the trees right and allow time in the autumn for the growth to stop and the roots to mature. We will not dig a tree until it is dormant and in good condition. We cannot ship your order in the fall before the trees are matured. If you must have immature, sappy trees from which the leaves have been stripped, we prefer that you purchase from some one else. We will ship your fall order as soon as condition of the trees will permit digging—usually early in October. After that we can ship whenever you want them.

Pruning

We prune our two year trees in the nursery with the same care they should get in the orchard. They are gone over at different times during the growing season and are given better care than most trees in the orchard.

Exceptional One Year Apple Trees Grown By
Pomona United Nurseries

**Our Trees
dug by
Steam
Power.**

**By this
method
you are
sure of
good roots.**

We dig our trees as far as possible by steam power as illustrated. This enables us to secure good roots and tops which cannot be obtained by digging with horses and spade. We will not dig during hot or freezing weather. As soon as the trees are taken from the ground they are loaded on wagon and immediately taken to the packing house, graded and tied in bunches under cover, hence the roots are not exposed to the sun or wind.

Pomona United Nurseries, Dansville, N.Y.

DUCHESS OF OLDENBURG—The most productive and profitable Early Free Apples

Red Astrachan—The well known early variety. Fruit large, roundish, nearly covered with deep crimson, juicy, rich, acid and fine. Highly regarded on account of its fine appearance, earliness and hardiness. Tree a vigorous grower and sure bearer. Aug.

Yellow Transparent—A Russian variety. Tree an upright grower and a very early and abundant bearer. Fruit of good size; skin clear white, turning to a pale yellow; flavor acid and very good. Ripens from ten days to two weeks earlier than Early Harvest.

Early Harvest—Medium to large; pale yellow; fine flavor. Tree a moderate, erect grower, and a good bearer; a beautiful and excellent variety for orchard and garden. Aug.

Sweet Bough—Large, pale greenish yellow; tender and sweet. Moderate grower and a good bearer. Aug.

Early Strawberry—Medium, striped with deep red; tender, sub-acid and excellent; a poor grower but productive. Aug.

Williams' Favorite—A bright red apple, of mild, agreeable flavor. Aug. to Sept.

Carolina Red June—Small or medium, deep red, quality good. Tree hardy and a fine grower. Aug.

Golden Sweet—Large, pale yellow, tree a good grower and very productive. Aug. to Sept.

Fanny—Large, deep rich crimson, tender, juicy, pleasant. Tree vigorous and very productive. Aug.

Propagated Where the Best Trees Grow

WEALTHY—Hardy, high quality and the best money maker of its season

Wealthy—This is a beautiful, hardy winter apple, originating in Minnesota. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good.

This is one of the few most desirable varieties for Minnesota, Wisconsin, Iowa, Nebraska, as well as the Eastern and Middle States. In season it differs somewhat, according to locality; in New York and neighboring states its season is Dec. to Feb.

Maiden's Blush—Medium size, flat, quite smooth and fair; pale yellow with beautiful red cheek. Tender, sprightly, pleasant acid flavor. Tree vigorous and productive. Good market variety. Sept. and Oct.

Gravenstein—An apple of excellent quality. For culinary purposes it is perhaps unexcelled by any variety of its season. Fruit large and uniform in size, skin thin, tender greenish yellow overlaid with dark red. Sept.

Fall Pippin—Very large, roundish, oblong; yellow; flesh tender, rich and delicious. Tree spreading, and a fine bearer; valuable for table or market use. Sept.

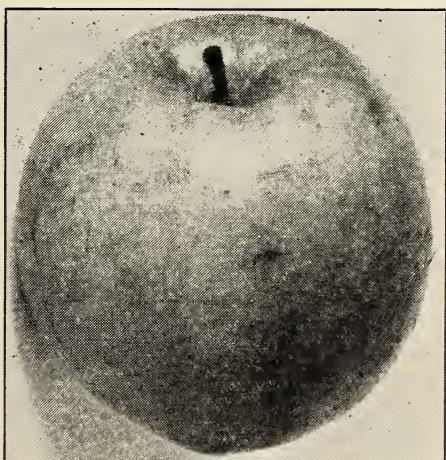

Alexander—A Russian variety, very hardy and abundant bearer. Fruit large, deep red; flesh white, crisp, tender, good flavor. Oct.

Pumpkin Sweet (Pound Sweet.)—A fine, large, yellow sweet apple. Excellent for baking or stewing. Oct. to Jan.

Autumn Strawberry—Medium, streaked, tender, juicy, fine and productive. Sept. to Oct.

Duchess of Oldenburg—A Russian variety of large size and beautiful appearance. Roundish, streaked with red and yellow, flesh white, tender, juicy and fine. A cooking apple of highest quality and esteemed by many for dessert. Tree a strong vigorous grower and abundant bearer. Succeeds well in the Northwest.

Rambo—Medium streaked and splashed with red, rich, sub-acid. Oct.

DO NOT DELAY PLANTING

There are 65,000,000 less Apple Trees in the orchards of the U. S. today than ten years ago.

Apple Trees of bearing age:

1920	115,265,029
1910	151,322,840
Decrease	36,057,811
Per cent of decrease	23.8

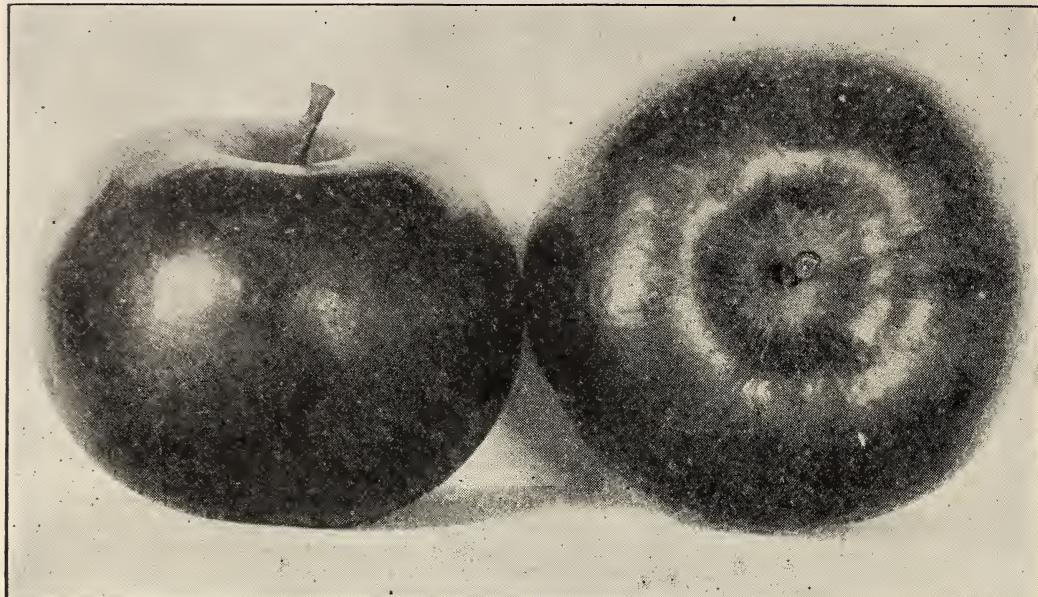

Apple Trees not of bearing age:

1920	36,171,604
1910	65,791,848
Decrease	29,620,244
Per cent of decrease	45.0

These figures were issued by the Department of Commerce, Washington, D. C., June 27, 1921.

FAMEUSE—The Best Late Fall Apple

Fameuse (Snow Apple)—Hardy, Medium size; deep crimson; flesh is snowy white, tender, melting and delicious. Tree vigorous with dark wood; one of the finest dessert fruits, and valuable for market; succeeds particularly well in the North. Nov. to Jan.

WAGENER—Highest quality, bears young, the ideal "filler"

Wagener—(Red Winter Apple.) One of the most beautiful winter apples ever grown. It is of the highest quality, the flesh being crisp, tender and aromatic. We know of no apple possessing greater beauty or of finer quality than the Wagener. It succeeds well East and West. Dec. to May.

McIntosh Red—An exceedingly valuable Canadian sort; medium size, nearly covered with dark red; flesh white, fine, very tender, juicy and refreshing. A good annual bearer of fair, handsome fruit. Resembles the Fameuse, but larger and more hardy, and fully equal in quality to this standard sort. Its season of ripening varies according to the location. In Northern New England it is a winter variety while in sections a little further South it is considered a fall or early winter apple.

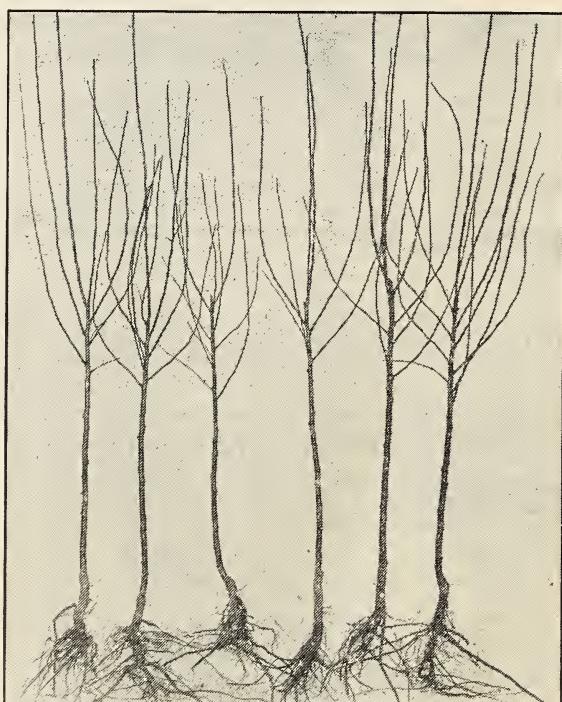

Roxbury Russet—Medium to large. Surface rough, greenish covered with russet. Tree free grower, spreading; a great bearer. Keeps until June.

Esopus Spitzenburg—Large, deep red with gray spots, and delicately coated with bloom; flesh yellow, crisp, rich and excellent. Nov. to Apr.

Stayman's Winesap—Fruit medium, large; skin green and yellow, red-striped; flesh yellow, firm; quality excellent. A seedling of Winesap but larger, better and more productive. Dec. to Apr.

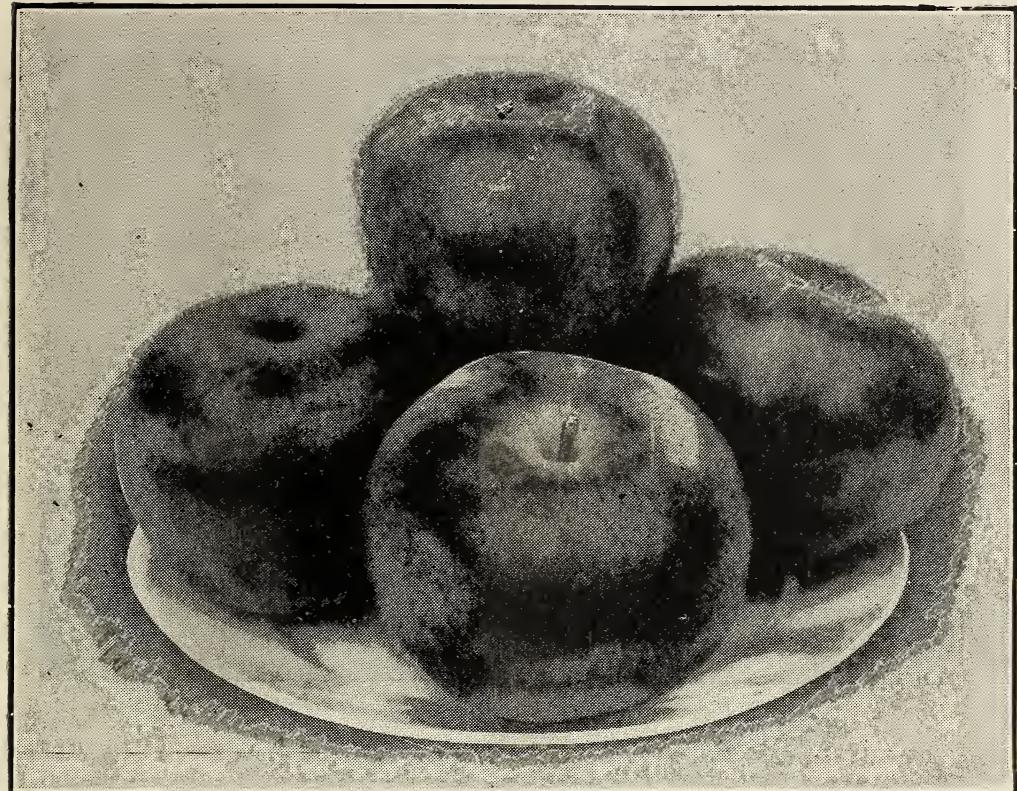

Opalescent—Probably the handsomest Apple ever put on the market. It is large and shapely and a veritable feast to the eye. Color light, shading to very dark crimson; skin smooth; susceptible of a very high polish reflecting objects like a mirror; flesh yellowish, tender, juicy and good. Dec. to March.

Jacob Sweet—A large showy apple, green or yellowish, often with bright blush. One of the best sweet apples. Oct. to Apr.

STANDARD APPLE TREES, 5½ to 7 ft. High

Propagated Where the Best Trees Grow

BALDWIN—The Apple for the millions, they fill the barrels

Baldwin—A great market apple, very productive of fair handsome fruit. No variety yields larger crops or bears shipment better, or is more attractive in color, size and shape, than the Baldwin. It is esteemed as an eating apple, and for cooking. Thousands of barrels of this fruit are exported to England annually. For a commercial orchard it can be relied upon. Large, bright red, crisp, juicy and rich; tree vigorous, upright and productive. In New England, New York, Ontario and Michigan, this is one of the most popular and profitable sorts for table or market. Dec. to March.

Rome Beauty—A large and handsome, apple, almost entirely covered with bright red; of high quality. The flesh is tender, juicy and highly flavored. It is a popular apple over a wide range of country, particularly in the West. Dec. to March.

Newtown Pippin (Albemarle Pippin)—This is one of the best apples for shipping to foreign markets. When fully ripe it is yellow with red cheek and a smooth skin.

Bailey Sweet—A beautiful red apple of good quality. Oct. to Jan.

Northwestern Greening—A hardy winter apple of very large size, much larger than R. I. Greening. This apple is highly prized in localities where the ordinary Greening will not succeed. One of the best of the hardy kinds. The size is large, very round and symmetrical in shape; color, green, which turns yellow at full maturity; flesh yellowish, fine grained, tender, juicy; sub-acid; quality good. Jan. to Apr.

Twenty Ounce—Very large; greenish, becoming yellow, mottled and splashed with bright red. Flesh tender and juicy. Sept.

Grimes' Golden—Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Grown in the South and Southwest. Jan. to April.

Smokehouse—This grand apple is a great favorite in Pennsylvania and doesn't seem to be known much elsewhere. Tree a vigorous grower, healthy, hardy and a reliable cropper. The fruit hangs well to the tree and is of good color and quality, uniform in size and shape. Oct. to March.

Gano—A fine commerical sort. Very hardy. A half brother to Ben Davis, though of better quality. Very richly colored, uniform in size; keeps until March; rapid grower, fruit very handsome, flesh pale yellow, mild, sub-acid, good.

Yellow Belleflower—Season, winter. A hardy apple of large size, a beautiful golden color, often with red, blush; conical in shape. Flesh very tender and fine grained, crisp, juicy, sub-acid, of excellent quality. Oct. to Feb.

Boiken—Medium size; yellow, tart, acid, long keeper. A very good cooking apple.

Winter Varieties of Apples

R. I. GREENING APPLES—High quality and dependable

Rhode Island Greening—This large and superior winter apple is famous over a large extent of country, and is more highly prized for cooking and eating than any other variety. It is a good keeper but will keep better if picked early. This Greening is a beautiful yellow color when ripe, and is a most abundant yielder. March to April.

Sutton Beauty—Fruit large, waxy yellow striped with crimson; flesh white, tender, juicy, mild acid; quality good and a remarkable keeper. Dec. to Feb.

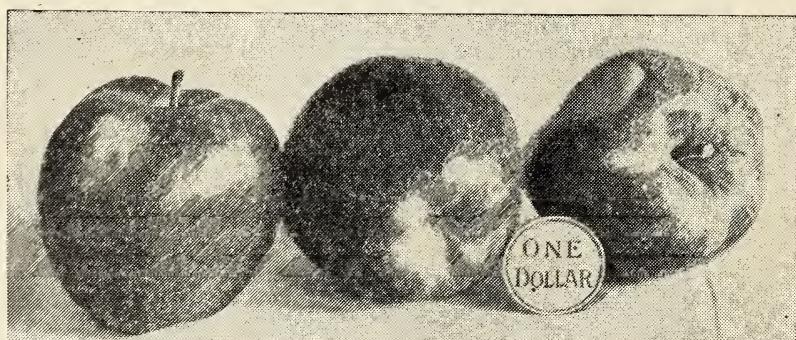

Golden Russet—Medium to large size, dull russet, with a tinge of red on the exposed side; flesh greenish, crisp, juicy, and high flavored; hardy, bears well. Nov.

Jonathan—A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy, and rich—a splendid family sort and highly profitable for market. Tree long-lived, productive. Nov. to Apr.

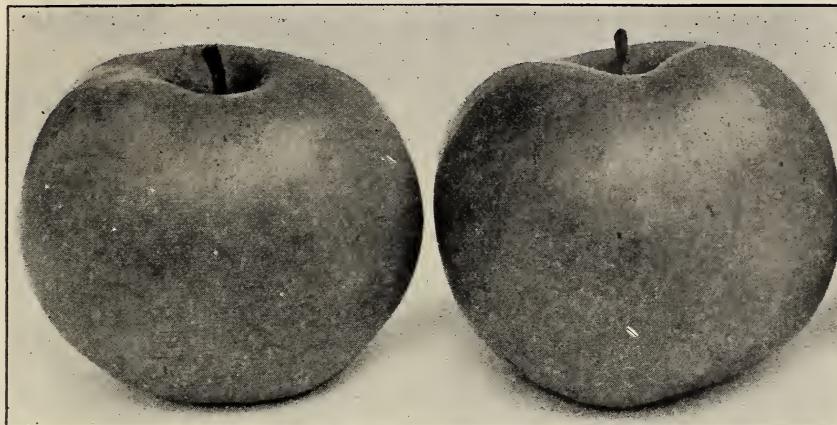

Delicious—This apple is appropriately named for its handsome appearance as well as high quality. Everyone should plant one or more trees. Fruit large, oblong, nearly covered with bright red; of the highest quality.

King of Tompkins County—One of the standard varieties grown for commercial purposes, and gives the greatest satisfaction when top-worked on some hardier variety. The fruit is of a bright red color, large and uniform. It is well adapted for marketing in fancy packages and is in good demand for both special and general trade, often selling at an advance over standard varieties.

Hubbardston (Nonesuch)—One of the earliest bearers. Large, striped yellow and red; flesh yellow, juicy and tender with an agreeable flavor, strong grower; bears well every year.

DELICIOUS RED APPLE—Very Productive. So largely advertised and highly spoken of by leading fruit growers

WINTER BANANA APPLES—A favorite wherever planted

I
Will
Plant
Them
Quality
Tells

Winter Banana—Perfect in form; golden yellow, and beautifully shaded with bright crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. A good keeper. Tree remarkably strong grower. A valuable market variety. Nov. to Jan.

Northern Spy—One of the standard and best known varieties. Has long been a favorite among commercial sorts in northern New England, Michigan, New York and adjoining states. Dec. to March.

York Imperial—A fine, hardy, large, red apple; succeeds over a wide range of country. A fine market sort, bringing highest prices. Fruit large, oblong, smooth, skin yellow and nearly covered with light to dark red; flesh yellow, juicy, firm, sub-acid, good. An early bearer. Nov. to Feb.

Seek-No-Further—Medium to large, slightly russeted with dull red stripes; tender, rich, spicy and fine; good grower and bearer. Nov. to Feb.

SELECT VARIETIES OF CRAB APPLES

Whitney's Seedling—Large, averaging one and one-half to two inches in diameter; skin smooth, glossy, green striped, splashed with carmine; flesh firm, juicy and rich. A great bearer and very hardy.

Transcendent—Medium to large; roundish, oblong; golden yellow, with a rich crimson cheek, covered with a delicate white bloom; flesh yellow, crisp and when fully ripe, pleasant and agreeable; perfectly hardy.

Large Red Siberian—About an inch in diameter, grown in clusters; yellow, lively scarlet cheek. Tree erect, vigorous.

Hyslop—Almost as large as Early Strawberry Apple; deep crimson; very popular on account of its large size, beauty and hardness. Keeps well into the Winter.

Personal Service is the Foundation of Our Success

Yes—Friendship, Good Faith, Sincerity and Personal Service do exist in business. They are the foundations of Pomona's success.

Ben Davis—Succeeds wherever apples are grown. There is no apple that has more favors on account of its hardiness, productiveness, beauty and endurance in shipping. Nov. to Apr.

Williams' Favorite—A bright red apple, of mild, agreeable flavor. Aug. to Sept.

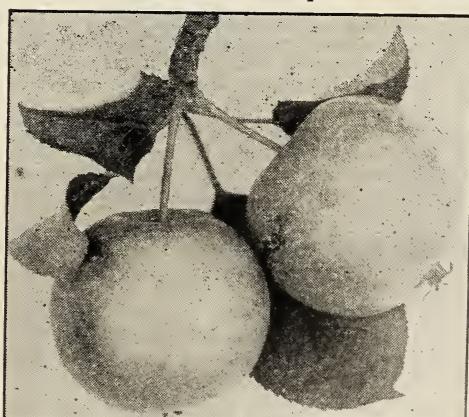

Carolina Red June—Small or medium, deep red, quality good. Tree hardy and a fine grower. Aug.

Gilliflower—(Black.) An old dessert apple; tree a good vigorous grower and a reliable cropper. Oct. to Feb.

Mammoth Black Twig—The tree is a strong grower, a regular and abundant bearer. A good winter apple. Deep red; sub-acid, very high flavored.

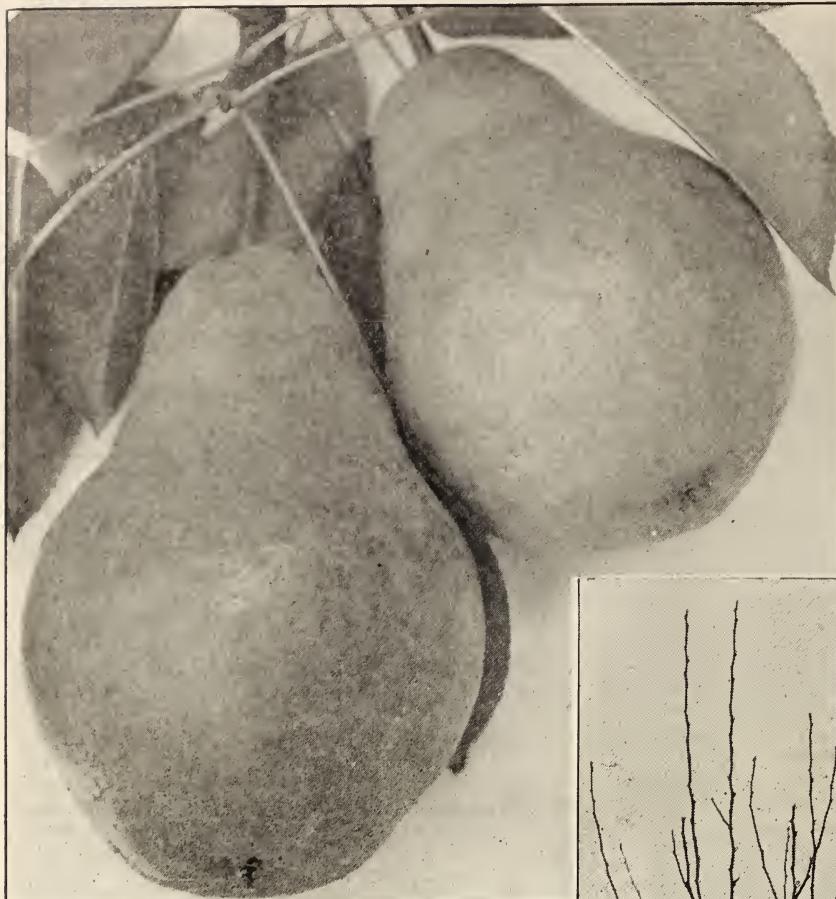

Stark—Esteemed as a long keeper and valuable market fruit. Fruit large roundish; skin greenish yellow, much shaded with light and red, and sparkled with brown spots; flesh yellowish, juicy, mild sub-acid. Jan. to May.

Tolman Sweet—Season, winter. Medium to large size; color, light yellow; flesh, white, firm, rich, and very sweet. Excellent for winter baking. Keeps well into spring. Nov. to April.

TRANSCENDENT CRAB—Best for Commercial and home planting

Select
Varieties
of
Standard
Pear
Trees

BARTLETT—The most dependable high quality Pear

Bartlett—Large, coloring when fully ripe to waxy yellow with red blush; juicy, melting, highly flavored. The tree bears early and abundantly. May be grown either as dwarf or standard, but succeeds best as standard. Aside from the fact that it bears early, regularly and abundantly, the Bartlett pear is justly popular on account of its size, beauty and excellence. When introduced to this country its name was lost. Since it was cultivated and discriminated by Enoc' Bartlett, it became universally known as the Bartlett. Aug. and Sept.

Seckel—Small size; yellowish russet, with red cheek; flesh whitish, buttery, very juicy and melting. The richest and finest variety known and extensively planted all over the country. A prolific bearer. Sept. to Oct.

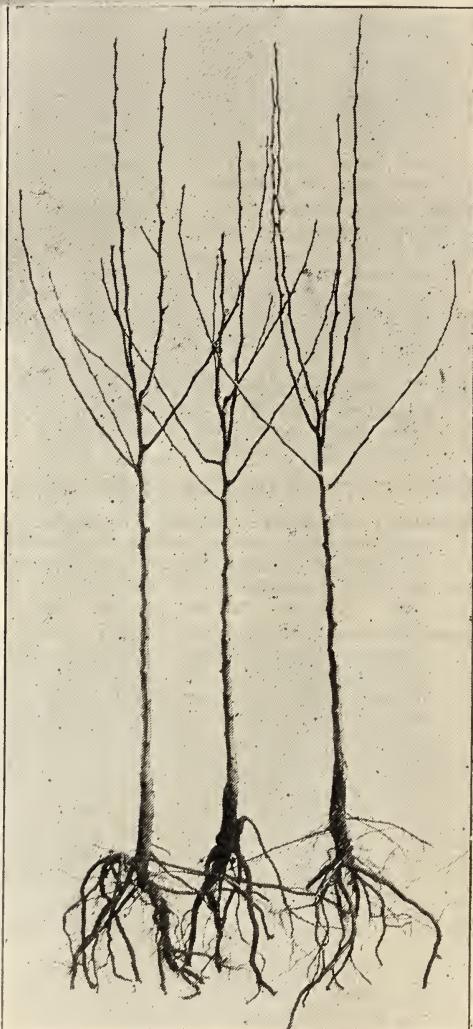

**Special Wholesale Price for All Varieties
of Standard Pear Trees**

Largest Size, 2 Yr. Trees, 5½ to 7 Ft., XXX, 95c each, 10 for \$8.50, 100 for \$80.00.

Largest Size, 1 Yr. Trees, 3½ Feet and Up, 75c each, 10 for \$7.00, 100 for \$65.00.

Smaller Size 1 Yr. Trees, 2½ to 3 Feet high, 60c each, 10 for \$5.50, 100 for \$50.00.

STANDARD PEAR TREE 5½ to 7 Feet High

Bearing Age Dwarf Pear Trees

*Plant Dwarf Pear Trees in
a Hedge Row 6 Feet Apart
for Good Results*

We have several thousand Dwarf Pear Trees that have been transplanted two years that are bearing fruit this summer.

These Trees Will Bear the First Year Planted

We offer a special list of varieties for the home garden in a collection of six trees, as follows :

2 Seckel	2 Duchess
1 Bartlett	1 Clapps Favorite

All 6 Bearing Age Trees, 4 to 5 feet high, for \$4.85

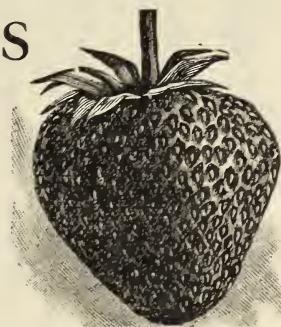

There is scarcely a city or town lot so small that room cannot be found for a few Dwarf Pear Trees.

Strawberry Plants

For Fall Planting

We offer some extra fine, well-rooted plants, ready to ship upon receipt of order, in the following varieties :

**Corsican, Senator Dunlap, Wilson
and Haverland**

Price for All Varieties by Mail or Express, Prepaid

**25 for \$1.00, 50 for \$1.50, 100 for \$2.50,
1000 for \$22.50**

(No order booked for less than 25 of one variety)

Strawberry plants set in September and early October will bear fruit next summer.

POMONA UNITED NURSERIES, DANSVILLE, N.Y.

Why You Should Plant in the Fall

Fall planting has the advantage over spring planting in that the trees become firmly established in the soil before winter sets in, and are able to start growth in the spring before the ground can be marked and put into condition for planting. This is important because the trees get a good growth in the early part of the season before the summer droughts occur. Very often the rush of Spring work induces the grower to hurry his planting, or to do it carelessly, and as result a poor start is secured.

Until the last few years fall planting was practiced but little, but now many of the largest fruit growers plant nearly everything with the exception of peach in the fall. They find that by this method they have more time and much better success, as fall set trees show a phenomenal growth to those planted in the spring.

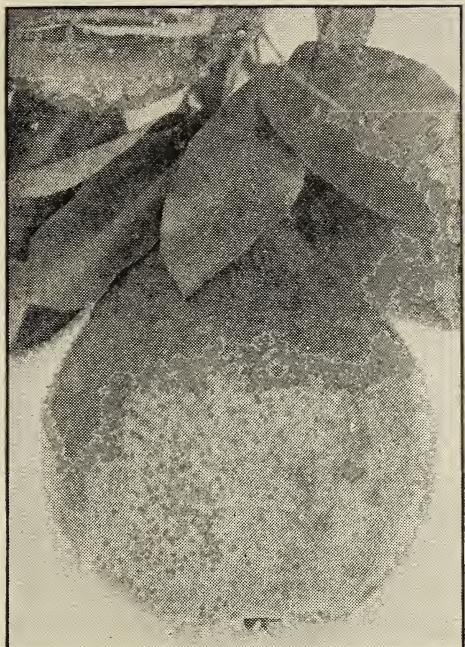

Fall set trees should be banked before winter sets in, to throw off surplus water and as a guard against mice. Carelessness in planting in the fall will never do any more than it will in the spring, but the chances of the trees living are better and the work is done. In the fall there is an abundance of time to plant, and the work therefore can be done more satisfactorily than in the spring.

The once prevailing notion that fall planting was not advantageous has proved to be erroneous, and with the exception of a few tender varieties can be successfully planted in the fall. *October and November* are the fall months when planting may be done. Trees planted in October will make a new root growth to a considerable extent before winter arrives; and when spring has come, these fall set trees will be in good condition to begin a new root growth and leaf growth, as though they had been planted the previous spring, thus saving one year's growth by planting in the fall.

POMONA UNITED NURSERIES

DANSVILLE, N. Y.

Propagated Where the Best Trees Grow

CLAPP'S FAVORITE
High Quality, Profit Making Pear

Sheldon—Large size; roundish; greenish yellow, mostly covered with thin light russet; very juicy, melting, sweet and vinous; a fine grower and good bearer. Oct. to Nov.

Duchess d' Angouleme—Very large; of greenish yellow, with patches of yellow and a dull red cheek; a vigorous and strong grower and a good bearer while quite young. Oct. to Nov.

President Drouard—Highly recommended for its rich flavor and great keeping qualities. Tree a vigorous grower. Fruit large and handsome; melting and juicy. March to May.

Lawrence—Above medium size, yellow, tender and melting; quality best; one of the best winter pears. In season during mid-winter.

Louise Bonne de Jersey—Large size, pale green in the shade but overspread with brownish red in the sun; very juicy and melting with a rich and excellent flavor. Sept. to Oct.

The Genesee Valley

Supplies the world with fruit trees. Millions of trees and plants are shipped from Dansville each year. In the fertile state of New York is probably no valley which is more famous, more diversified in its agriculture, nor one possessing greater possibilities than that of the Genesee. It is here where trees are grown to perfection and are known to make a more healthy and vigorous growth than those grown elsewhere.

Good Trees cost the least and are the smallest investment you put into any field or garden. It is the smallest initial expense and counts for the most.

Clapp's Favorite—Large size; pale lemon yellow; flesh fine grained, juicy, melting, rich and buttery, earlier than Bartlett and resembling the Flemish Beauty in growth. It is equally hardy with Flemish Beauty; a good grower and productive. Very desirable in all sections, and especially so where other varieties fail. Care should be taken to pick the fruit at least ten days before it would ripen upon the tree. Aug. and Sept.

Anjou—For late fall and early winter use, there is no better variety. **Quality Equal to Bartlett.** A close second to Bartlett in public favor. Distributes its fruit well, and stands up under a load better than Bartlett. Equal in quality to Bartlett and holds up longer. Hardly so prolific as Bartlett, but usually higher in price and one of the most profitable sorts grown.

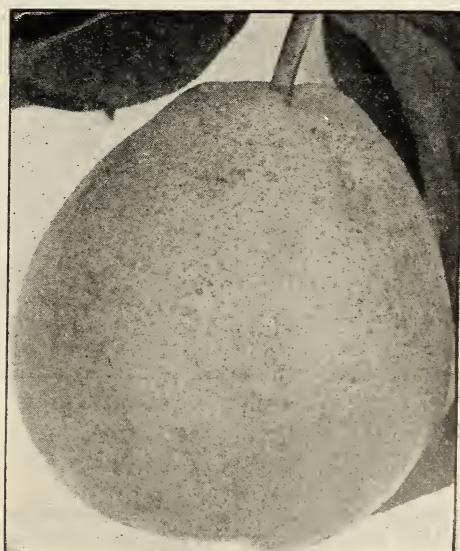

Beurre Clairgeau—Very large; light yellow, shaded with crimson and russet; an early and abundant bearer. Jan.

Howell—Large size; light-waxen yellow, sweet and melting; excellent quality; a strong and hardy grower and good bearer. Sept. to Oct.

Flemish Beauty—Large size; greenish yellow and brown; rich and juicy. An old and highly esteemed variety; a strong grower and a great bearer; hardy and desirable. Fruit almost covered with light russet, becoming reddish-brown when ripe. Large, beautiful, melting, sweet and rich.

Wilder—Handsome, melting, sweet, pleasant, with small core, fine grained, tender and juicy. Greenish yellow with brownish red cheeks. Aug.

Kieffer—A vigorous grower, an early and regular bearer and very productive, fruit large, rich yellow, tinged with red, somewhat russet, flesh white, buttery and juicy. A good canning pear. Oct.

ANJOU PEAR—Delicious Flavor

Propagated Where the Best Trees Grow

Select Varieties of Peaches

A BLOCK OF 1-YEAR PEACH TREES

Hill's Chili—Medium; deep yellow shaded with dark red. Hardy, vigorous and productive. Good market variety. First of Sept.

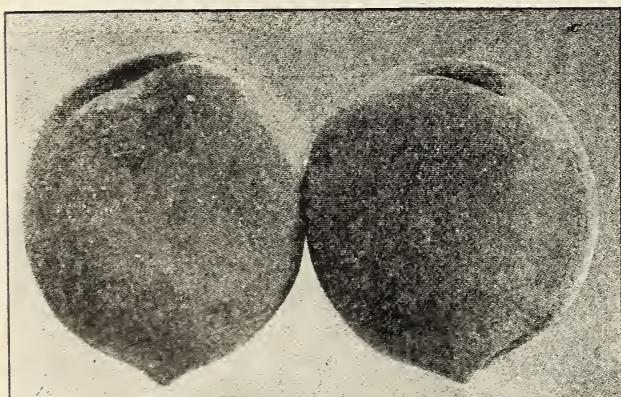

Kalamazoo—Large, golden yellow, with crimson cheek; flesh thick yellow, superb quality, small pit. Strong grower, early bearer, hardy and productive.

Salway—Large; deep yellow, red cheek. Flesh yellow, juicy. Oct.

Smock—Large size; light orange yellow with red cheek. Flesh yellow, juicy and rich. Oct.

Triumph—Earliest yellow-flesh peach, with good eating and shipping qualities, sure and abundant bearer; strong, vigorous grower.

Willett—Bright yellow, mostly covered with red. Flesh juicy and rich. Sept. Freestone.

EARLY CRAWFORD PEACH

Crawford's Early—A large yellow peach of good quality. Its fine size, beauty and productiveness make it one of the most popular sorts. Sept.

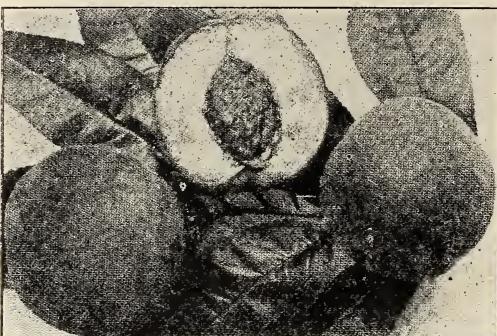

Special Wholesale Price for all varieties of Peach Trees budded on stocks from Natural Pits:

Extra Size Trees	5 to 6 Feet	XXX	70 cents each	10 for \$6.50	100 for \$37.50
Medium Size Trees	4 to 5 Feet	XX	65 cents each	10 for \$6.00	100 for \$32.50
Orchard Size Trees	3 to 4 Feet	X	60 cents each	10 for \$5.50	100 for \$25.00
Smaller Size Trees	2 to 3 Feet		50 cents each	10 for \$4.50	100 for \$22.50

Peach trees are easily cultivated, their comparative freedom from disease, the short period before they become productive, with the immense demand for the fruit and the facilities with which it may be shipped to distant markets, make peach growing extremely profitable, and there are few kinds of fruits more highly prized and more keenly relished.

To secure healthy, vigorous and fruitful trees, the ground must be kept clean and mellow and it should receive an occasional dressing of wood ashes. It should be remembered that peaches are all borne on wood of the previous season's growth, and that this makes it absolutely necessary to prune the trees yearly, to remove dead branches and let in light and air, and keep the trees in good shape to produce bearing wood.

Yellow St. John—Large; yellow with deep red cheek. Flesh yellow, sweet, juicy. Bears young. Ripens before Early Crawford.

Beer's Smock—Large, yellow, with red cheek; flesh yellow and of the very best quality for the season; a regular and enormous bearer, making it very desirable for market purposes. Sept.

Belle of Georgia—Large; white with red cheek; flesh white, firm and of excellent flavor. Tree a rapid grower and very productive. Early July.

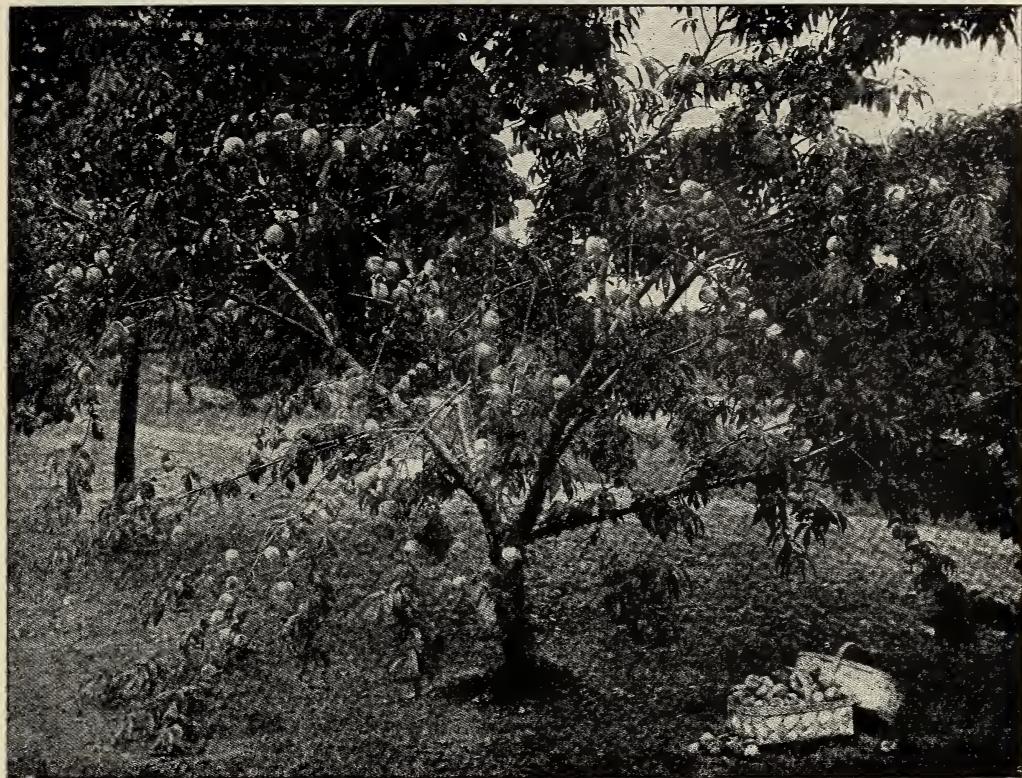

Early Canada—Originated in Canada. As early as the earliest. Of good size, fine quality and handsome appearance. July.

Crosby—A remarkably fine peach for home use or market. Ripens just before Crawford's Late. Sept.

Foster—Large, deep orange red, becoming very dark red on the sunny side; flesh yellow, very rich and juicy, with sub-acid flavor.

Chair's Choice—Deep yellow, with red cheek; flesh yellow and very firm. Oct.

Niagara—Large, yellow, juicy and high flavored, freestone, season medium, following quick upon Early Crawford and just before Elberta.

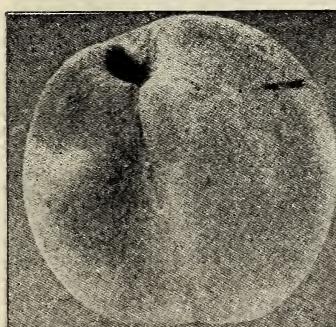

A low headed ELBERTA PEACH TREE hardy and productive

Elberta—A valuable, large peach of good quality. The best orchard variety, and valuable also for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. Elberta is large, yellow, with red cheek, juicy and high-flavored, flesh yellow; freestone. Season medium early, following quickly upon Early Crawford.

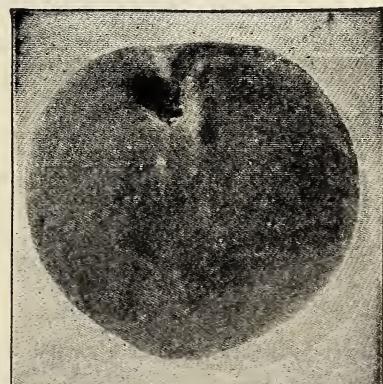

Champion—Tree and fruit buds extremely hardy—has stood eighteen degrees below zero and produced a full crop the following summer. The flavor is delicious, sweet, rich and juicy; skin creamy white with red cheek, strikingly handsome.

Crawford's Late—Of large size; skin yellow or greenish yellow, with dull red cheek; flesh yellow. Tree vigorous; moderately productive; one of the finest late sorts. Last of Sept.

Fitzgerald—Fully equal to Crawford's Early in size, quality and color, a very early bearer, hardy, succeeding in Canada and in Michigan perfectly; fruit large, brilliant yellow with red cheek; highest quality.

CHAMPION PEACH
Creamy White Freestone

CARMAN HARDY PEACH

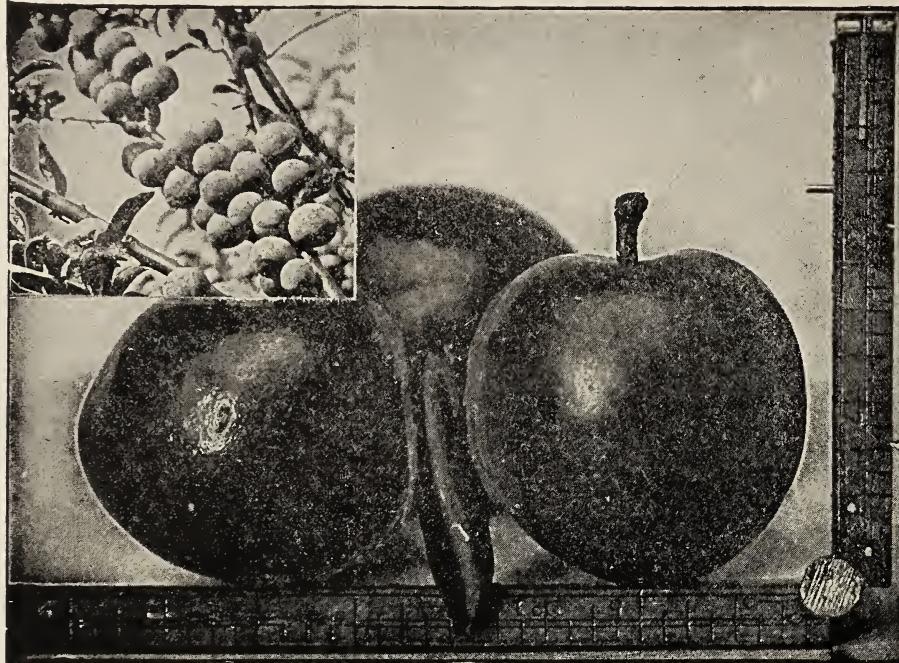

Carman—A very hardy peach, ripening at same time as Early Rivers, yet almost as large and fine as Elberta. Skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting. Aug.

Early Rivers—Large; color creamy white, with a delicate pink cheek, flesh melting, with a remarkably rich, racy flavor. Middle of Aug.

Greensboro—A valuable early white peach. Much larger in size than Alexander, ripening about the same time. July.

Select Varieties of Plums

The Plum does best on a strong, clay soil, where it grows the most thriftily, and as is the case with all other fruits, it is greatly benefited by thorough cultivation.

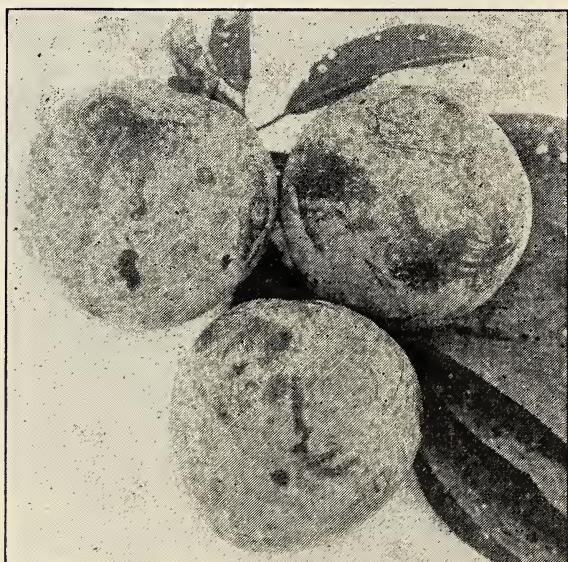

BURBANK—The Reliable Cropper

Burbank—The best and most profitable among growers for market; ripens 10 to 14 days after Abundance. Burbank is one of the best of Japan Plums. Unsurpassed for beauty and productiveness, as well as great hardiness of tree, with a foliage so perfect as to contribute in an essential degree to its health. Fruit large, oval often a slight neck; skin reddish purple; flesh yellow, juicy and good.

Red June—Recommended as “by all odds the best Japanese Plum, ripening before Abundance.” One of the vigorous, upright growers; productive; fair size, vermillion red; pleasant quality. Ripens a week before Abundance. Aug.

Wickson—Fruit remarkably handsome, very large, long, heart-shaped, color deep maroon red covered with white bloom; flesh firm and meaty, yellow, rich and aromatic; cling; pit small. Tree an upright vigorous grower. Excellent keeper and shipper, is being planted largely for market. Early Sept.

Before planting your orchard make sure that you have selected varieties which are adapted to your soil, climatic and market conditions. If you have any question or wish our advice in selections, we are glad to help you and will answer to the best of our ability.

Smaller Size	3 to 4 Feet	X	.75	7.00

ABUNDANCE PLUM—Hardy and Productive

Abundance—The popular plum. Tree thrifty, hardy and beautiful; fruit large, showy and good, richly perfumed. The editor of *The Rural New Yorker* writes: "From one little Abundance tree we picked ten pecks of fruit. The quality is excellent. When fully ripe they are full of juice. The flesh is tender, and there is mingled with the plum a peach flavor that is refreshing and agreeable." First of August.

European Varieties of Plums

Beauty of Naples—Size large, color greenish-yellow, flesh firm, juicy and very fine flavored. Sept.

Hungarian Prune. (Pond's Seedling)—very large, dark red, juicy and sweet. Sept.

Fellemburg. A fine late prune; oval, purple; flesh juicy and delicious. Sept.

German Prune—A large, long oval variety, much esteemed for drying; color dark purple; of very agreeable flavor. Sept.

Lombard—A great favorite because it is a wonderful and early bearer and a hardy strong grower.

Coe's Golden Drop—Large and handsome. Last of September.

Grand Duke—Fruit oval with a short neck. Skin dark, almost a darkish purple.

Imperial Gage—Fruit large, oval; skin pale green, flesh juicy, sweet, rich and excellent.

Shipper's Pride—The fruit is of a large size, dark purple; excellent for canning and an unusually good shipper.

Shropshire Damson—An English variety of great merit for preserving. Large. Oct.

Yellow Egg—A large beautiful egg-shaped yellow plum. Last of Aug.

Geuii—Fruit large, roundish, oval; skin dark purple, covered with thick blue bloom; flesh yellow.

General Hand—Very large, oval; golden-yellow; juicy, sweet and good. First of Sept.

Reine Claude—A delicious greenish-yellow Plum, spotted with red. It is of the finest quality and the housewife's ideal Plum for canning and preserving. Sept.

Tatge—Evidently a seedling of the Lombard. Is larger, more nearly round, darker color and finer quality.

Pond's Seedling—Tree a vigorous grower and most abundant bearer. One of the most attractive in cultivation. Sept.

York State Prune—Originated in Dansville. Large size and resembles German Prune in shape and color. Small stone and very free. Very valuable for commercial planting.

Niagara—Unsurpassed for beauty and productiveness as well as great hardiness of tree. Fruit large, oval often with a slight neck.

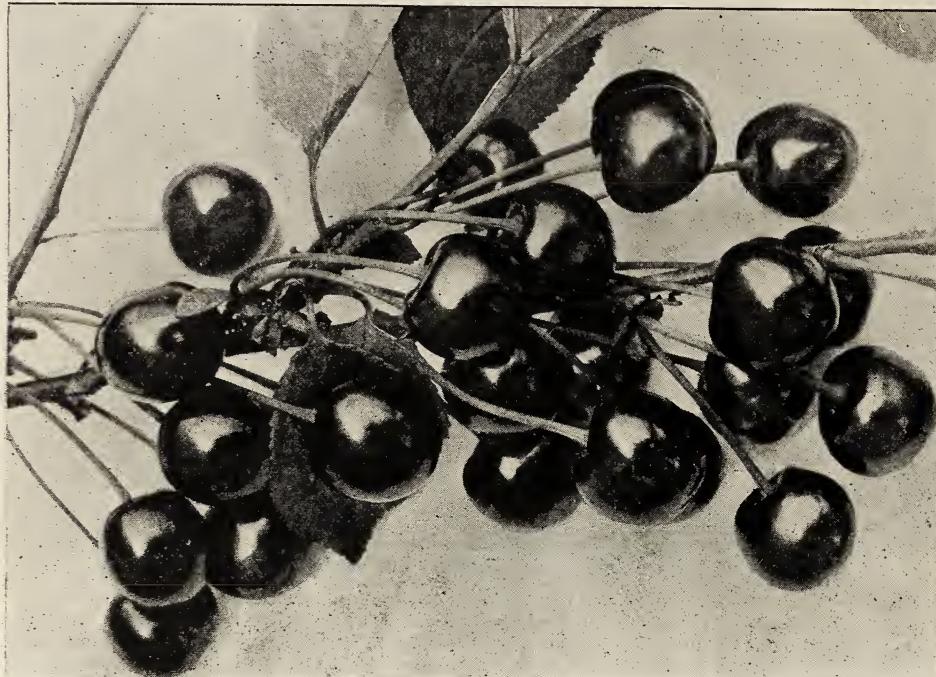

Monarch—It is roundish oval in shape and dark purplish blue in color.

Moore's Arctic—A very abundant and early bearer. Fruit ripens first of September. This is a purplish-black Plum with a thin blue bloom; flesh greenish-yellow, juicy.

Bradshaw—This is a very large, dark violet red plum, very juicy and good. The quality of Bradshaw is very fine and is very popular wherever planted.

Select Varieties of Cherries

The Cherry grows best on gravelly soil, and there attains its highest perfection, but will do very well in almost any situation except a wet one. It is one of the most ornamental of all fruit trees which, with its delicious and refreshing fruit, makes it very desirable for planting near the dwelling, where beauty and shade, as well as fruit, are so desirable.

The most popular Cherry MONTMORENCY ORDINAIRE hardy and productive

Montmorency Ordinaire—The most popular of hardy cherries for market and home use. This cherry is planted largely in all parts of the country. The fruit is in great demand by canning factories and others, and sells at fancy prices. Montmorency has been growing in popularity all over the country each year, so that it has been almost impossible to grow trees fast enough to keep up the demand. It is of large size, light red in color, stem rather short. The tree is very hardy and a vigorous grower. The trees bear fruit soon after planting.

Ostheime—Very hardy, fruit large and roundish. Flesh is liver colored, tender, juicy and almost sweet, although a sub-acid cherry. Quality good. Middle of July.

Olivet—A tree of this variety should be in every garden. The fruit is very large, has a shining deep red color; tender, mild sub-acid flavor. Finest table and canning cherry you can get. Ripens in June.

Wragg—A Russian variety. One of the hardest cherries, vigorous and productive, medium size, dark purple, fine quality and has produced annual crops at the northernmost limit.

English Morello—The most valuable late cherry. Easily grown, producing a heavy crop every year. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. Aug.

Early Richmond—One of the most valuable and popular cherries, unsurpassed for cooking purposes. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head, exceedingly productive. Ripens through June.

May Duke—Large red; juicy and rich; an old excellent variety; vigorous, productive. June 15.

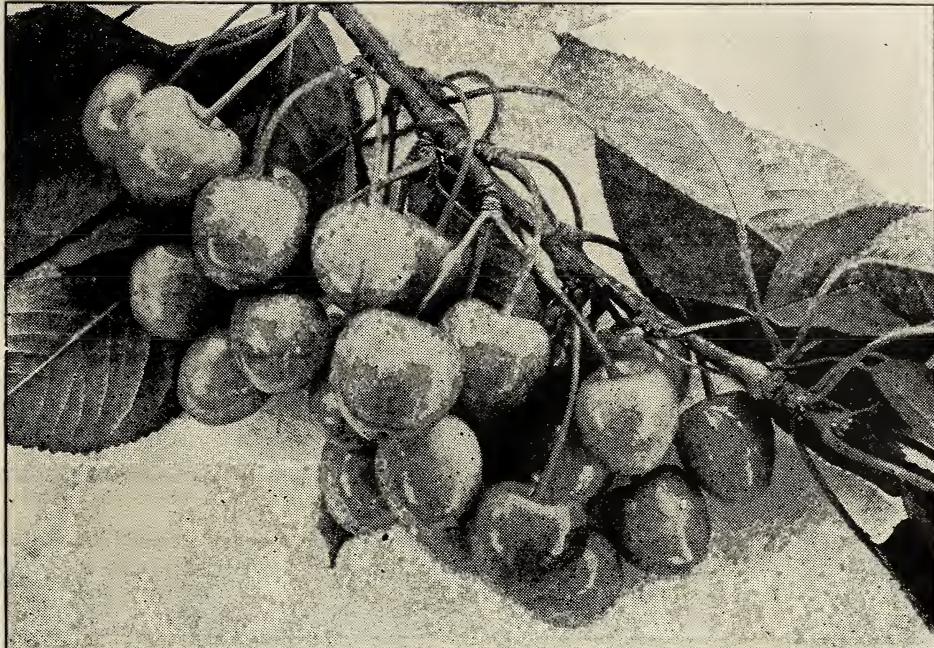

Louis Phillippe—Large dark red; flesh tender, mildly acid, good to best. Mid-July.

Special Wholesale Price for all Sweet and Sour Varieties of Cherry Trees

Largest Size	2 Year Trees	5 to 7 Ft.	XXX	Each	10	100
Orchard Size	2 Year Trees	4 to 5 Ft.	XX	.95	8.50	75.00

Smaller Size	1 Year Trees	2 to 3 Ft.	XX	.80	7.50	70.00

Select Varieties of Cherries

The fruit of which is heart-shaped with tender, sweet flesh and the trees rapid growers. With my experience in growing cherries I by all means urge every owner of a home with a little space to plant Sweet Cherry Trees. No fruit is more liked by members of the family than this delightful fruit when fresh picked, stewed or preserved.

NAPOLEON CHERRIES (Reduced one half)

Napoleon Cherry—Fruit very large, oblong, pale yellow, with a bright red cheek in the sun. Flesh very hardy, brittle, reddish at stone, juicy, and sweet. Tree a vigorous and erect grower, very productive. Early in July.

Bing—One of the most delicious Sweet Cherries grown. Tree very hardy and vigorous with heavy foliage. It succeeds in the East better than most sweet varieties. Fruit is large, dark brown or black and of very fine quality. Bing is a good shipper and should be planted with Lambert for commercial purposes.

Black Tartarian—Very large; bright purplish black; half tender; juicy, very rich. Tree a remarkably vigorous and erect grower, and an immense bearer. One of the most popular varieties in all parts of the country. Ripe last of June.

Gov. Wood—One of the best. Clear, light red; tender and delicious. Tree vigorous and productive. End of June.

Lambert—A valuable Sweet Cherry of the largest size. Skin dark purplish red, almost jet-black when ripe. Flesh firm, rich and juicy. Tree hardy, a strong grower and an enormous bearer.

Yellow Spanish—Large, pale yellow, with red cheek; firm, juicy and excellent, one of the best light colored cherries; productive. Last of June.

Rockport—Fruit large, heart-shaped; skin pale amber; sweet and excellent. July.

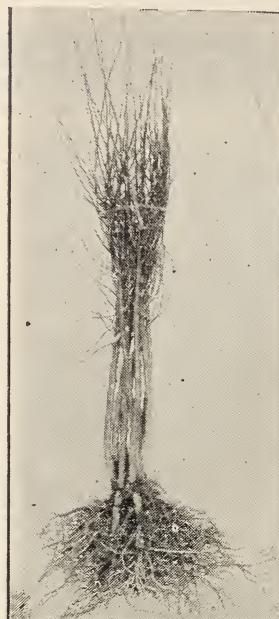

Royal Ann (Napoleon)—A valuable cherry of the largest size. Pale yellow, with bright red cheek; very firm, juicy and sweet; valuable for canning.

Black Heart (Black Ox Heart)—An old variety; deep black; flesh tender, juicy, sweet. July.

Schmidt's Bigarreau—Black; flesh dark, firm. Very productive. Is one of the best firm fleshed cherries of the largest size. July.

Windsor—Fruit large; liver colored, resembling the Elkhorn, ripening a few days after that variety; flesh remarkably firm, of fine quality. Tree hardy and prolific. Vigorous. Middle of July.

Our guarantee. If any stock does not prove true to name and as represented by us, and as bought by you, we will make good your loss by replacing free any trees or plants at any time within ten years after date of purchase. If for any reason we cannot agree on this adjustment, we are each to appoint one arbiter who shall choose a third party and we shall accept the award of the majority as binding on both parties. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, quality, growth, productiveness or any other matter.

DWARF PEAR TREES

Select Varieties of Dwarf Pears At Special Low Prices

Dwarf Pear Trees often bear the same year planted, and the trees occupy but little room in the garden. They can be planted very closely together and kept headed back. There is scarcely a city or town lot so small that room cannot be found for a few dwarf fruit trees. Their hardiness makes it possible for anybody, anywhere, to produce delicious fruits. I am confident that if any patrons were to spend hours choosing from local nurseries or the agent's catalogues, they would not find an equal number of varieties that possessed more valuable features for the home or market than those offered in this list.

DWARF PEAR TREE HEDGE

We offer the following list of superior varieties of Dwarf Pear Trees. These are about all the varieties that will succeed as Dwarf trees. (See description of these on other pages.)

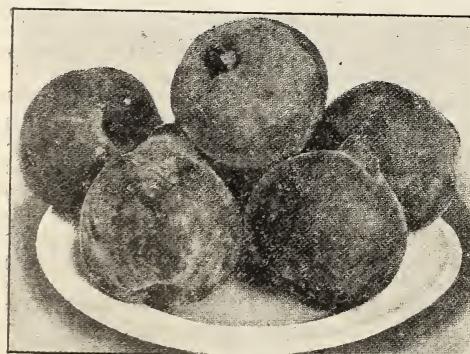

Bartlett, Seckel, Clapp's Favorite, Duchess, Anjou, Kieffer, Flemish Beauty and Wilder Early.

Special Wholesale Price for all Varieties of Dwarf Pear Trees

Extra Size	2 Year Trees	4 to 6 Ft.	XXX	.60	\$5.50	\$50.00
Medium Size	2 Year Trees	3 to 4 Ft.	XX	.50	4.50	40.00
Orchard Size	2 Year Trees	2 to 3 Ft.	X	.45	4.00	35.00

Select Varieties of Quince

The Quince is a fruit very useful for cooking, canning and preserving and should be more generally planted. It always brings good prices on the market. Very desirable in making preserves, as it imparts the fine quince flavor to any other fruit with which it is prepared. Quince Marmalade makes one of the finest preserves.

A PLATE OF ORANGE QUINCE.

Orange—Large; roundish, of a bright golden yellow color, flesh firm and tough until cooked, when it becomes tender, juicy and of excellent flavor. Tree has rather slender shoots and oval leaves; very productive. This is the variety most extensively cultivated for the fruit. Ripe in October.

Rea (Rea's Mammoth)—A large and fine variety of the Orange Quince. Rich and aromatic, one of the largest and handsomest. Bears young. A strong grower and productive.

Van Deman—A strong grower, the hardiest, surest and youngest bearer. Fruit golden, big, fine flavored. Tree productive.

Champion—A good variety, but ripens rather late for some sections. One of the best for section not subject to early frosts.

Meech's Prolific—A large, late ripening variety; one of the best.

Missouri Mammoth—Rich and aromatic, one of the largest and handsomest. Bears young and prolifically.

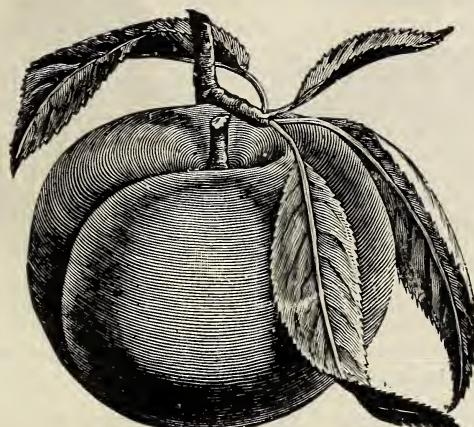

Special Wholesale Price for all Varieties of Quince Trees

Extra Size	2 Year Trees	4 to 6 Ft.	XXX	95c each	10 for \$9.00
Medium Size	2 Year Trees	3 to 4 Ft.	XX	85c each	10 for \$8.00
Orchard Size	2 Year Trees	2 to 3 Ft.	X	70c each	10 for \$6.50

Propagated Where the Best Trees Grow

Selected Varieties of Apricots

ALEXANDER APRICOT

Gibb—Tree hardy, grows symmetrical, productive; fruit medium, yellowish, sub-acid, juicy and rich; the best early variety, ripening last of June.

J. L. Budd—Tree a strong grower and profuse bearer, fruit large, white with red cheek; sweet juicy, with a sweet kernel, as fine flavored as an almond; the best late variety.

Harris—Equal in size and quality to the best cultivated, recommended for its hardiness and good bearing qualities. June 20th to July 1st.

Montagamet—Deep yellow, one of the best for preserving. Sub-acid and of good quality. Tree vigorous and productive.

St. Ambroise—One of the largest and finest apricots, ripening early in August.

Wholesale Price for all varieties of Apricot trees 2 to 3 feet high 60 cents each, 10 for \$5.50, 3 to 4 feet high, 75 cents each, 10 for \$7.00.

Select Varieties of Nut Trees

Chestnut American Sweet is adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes.

Wholesale Price of 3 to 4 ft. trees, \$1.50 each.

Chestnut Spanish—A handsome round-headed tree, producing abundantly, very large nuts that find a ready market.

Wholesale Price of Spanish Chestnut trees, 4 to 5 feet, \$1.00 each.

Butternut—A fine native tree producing a large, longish nut, which is prized for its sweet, oily nutritious kernel.

Wholesale Price of Butternut trees, 4 to 5 feet, \$1.50 each.

Pecans—This nut is very productive.

Wholesale Price, 3 to 4 feet, \$1.50 each.

Walnut, English—A fine, lofty, growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. Every home garden should have one or more English Walnuts. Tree very hardy.

Wholesale Price, 3 to 4 feet, \$1.75 each.

Walnut, Black—The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

Wholesale Price, 5 to 6 feet, \$1.00 each.

Select Varieties of Dwarf Apples

Like Dwarf Pear Trees they come into bearing much earlier than Standard Trees. Their low broad heads are within reach, so that apples or pears can be easily picked. You can plant your garden full of dwarf fruit trees and still grow strawberries and vegetables. With dwarfs some varieties will bear the second year, and will bear a full crop the fourth year. While more dwarf trees can be planted upon an acre, and larger fruit can be produced, still they have not found favor among commercial orchardists except in a few sections where an extra high grade fruit is desirable. Dwarf trees are secured by propagating upon a slow growing root.

We can supply the following varieties:

Yellow Transparent, Gravenstein, Baldwin, McIntosh, Alexander, Duchess, Grimes' Golden, Yellow Belleflower, Twenty Ounce, Delicious, Wagener, Jonathan, Wealthy, Opalescent, Red Astrachan.

Special Wholesale Price for all Varieties of Dwarf Apple Trees

Largest Size	2 Year Trees	4 to 5 Ft.	95c each	10 for \$9.00
Medium Size	2 Year Trees	3 to 4 Ft.	90c each	10 for \$8.50

Garden Roots—Asparagus and Rhubarb

Conover's Colossal Asparagus—A standard variety of large size, tender and excellent quality. This variety is known everywhere. You will get more satisfaction out of a bed of asparagus than any other vegetable.

Palmetto Asparagus—A very early variety; even, regular size, of excellent quality. No home garden can be complete without it. This is a large growing variety, particularly delicious in quality. Plant in rows $3\frac{1}{2}$ feet apart, and one foot apart in the row. Let the lower ends of the roots extend down as far as they can but do not cover the crowns deep when planting.

Wholesale Price for strong 2 year roots of Conover's and Palmetto Asparagus, 25 for 85 cents, 100 for \$2.25, 1000 for \$15.00.

Linnaeus Rhubarb—Large, early, tender and fine. The very best of all which is a good paying, all season crop. There is a constant demand for it.

Price of Rhubarb, strong 2 year roots, 15 cents each, 10 for \$1.75, 100 for \$12.00.

Gooseberries

Plant in good rich soil and give a liberal dressing of manure every season. Regular pruning every year is essential for the production of fine fruit. The English varieties especially do best in partial shade and should be heavily mulched.

Downing—Large, handsome pale green, and of splendid quality for both cooking and table use; bush a vigorous grower. **2 Year Bushes 50 cents, 10 for \$4.50.**

Houghton's—Small to medium; roundish, oval, pale, sweet, tender, very good; plants spreading; shoots slender. **2 Year Bushes 45 cents each, 10 for \$4.00.**

Josselyn—Large size, smooth, prolific and hardy, of best quality. Have been tested over a wide extent of territory by the side of all the leading varieties, and so far is the freest from mildew. **2 Year Bushes 50 cents each, 10 for \$4.50.**

Red Jacket—A new red berry of large size and good quality; hardy and very productive. **2 Year Bushes 50 cents each, 10 for \$4.50.**

Columbus—Fruit of largest size, oval, handsome, a greenish yellow, finest quality. Plant's a strong, robust grower, free from mildew. **2 Year Bushes 50 cents each, 10 for \$4.50.**

Due to a Federal Quarantine, we can only ship to the following states **Currant and Gooseberry Bushes: Connecticut, Illinois, Indiana, Massachusetts, Michigan, New Jersey, Ohio, New York and Pennsylvania.**

Select Varieties of Currants

The Currant is one of the most productive and best paying small fruit that we have. There is, we believe, more profit to the acre in currants than any other small fruit.

Cherry (Red)—Very large; deep red; bunches short. Plants erect, stout, vigorous and productive.

Fay's Prolific (Red)—A cross between Cherry and Victoria. Of large size, fine flavor, and claimed to be twice as prolific as the Cherry.

Red Cross—A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. Very productive.

Wholesale Price for all Varieties of Currants, 2 Year Bushes 35 cents each, 10 for \$3.00, 100 for \$25.00.

A federal Quarantine prohibits all Nurseymen shipping Currant and Gooseberry Bushes to many states and sections of the country. Should we receive any orders from a locality covered by this quarantine we will notify patrons.

Propagated Where the Best Trees Grow

Grapes are planted anywhere and everywhere—to trail over the sides of houses, on arbors, sheltering paths, fences, etc.; even people who live in the crowded parts of cities may have them.

CONCORD—The Best Late Black Grape

Concord—Bunch large, shouldered, compact; berries large, covered with a rich bloom. Vine a strong grower, very hardy.

Campbell's Early (Black)—Strong grower, with large, healthy foliage; productive, its keeping and shipping qualities are equaled by no other early grape.

Moore's Early (Black)—Bunch and berry large, round with heavy blue bloom; vine exceedingly hardy. Its earliness makes it desirable for an early market.

Agawam (Roger's No. 15) (Red)—Berries very large, thick skin, pulp soft, sweet, sprightly, very vigorous, ripens early.

Diamond—Leading early white grape, ripening before Moore's Early.

Pocklington—One of the largest and most showy white grapes of the Concord type.

Catawba—Berries large, round; when fully ripe of a dark copper color.

Lindley (Roger's No. 9)—Berries medium to large; flesh tender, sweet and aromatic; ripens early.

Salem (Roger's No. 53)—Bunch large, compact; berry large, round, coppery red, tender, juicy. Ripens with Concord.

Delaware—Red, finest flavor. Bunch and berry small, compact; sweet, thin skin; slow grower; requires good soil.

Diamond White—The leading early white grape, ripening before Moore's Early. White, with rich yellow tinge; juicy, few seeds, almost free from pulp, excellent quality; above medium size, adheres firmly to stem.

Chas. A. Green White—Claimed by the introducer to be a new and valuable variety, a vigorous grower and an enormous yielder of very large and beautiful clusters of excellent fruit.

McPike—This mammoth black grape has been exhibited in all parts of the country. Its great size, fine flavor and beauty creating quite a sensation. The bunches are large, even and compact.

Worden (Black)—A splendid grape of the Concord type, larger, better quality and earlier. Vines vigorous, hardy and productive.

Brighton—Perhaps the best red grape in cultivation. Bunch large, compact; strong grower and very productive; quality good.

NIAGARA GRAPE

COLLECTION OF GRAPE VINES

10 Strong No. 1 Vines \$2.50

2 Worden	2 Concord	2 Chas. A.
2 Niagara	2 Brighton	Green

All Strong No. 1 Vines for \$2.50

Special wholesale price for all varieties of Grapes on this page (except Concord) strong vines, No. 1, 35 cents each, 10 for \$3.00, 100 for \$27.50.

Special wholesale price for Concord Grape Vines (only) strong vines, 25 cents each, 10 for \$2.25, 100 for \$19.50.

RASPBERRIES

Will do well on any soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched; ground bone is one of the best fertilizers. Keep well cultivated and free from weeds and suckers. As soon as they have done bearing, cut out the old wood to give more vigor to the young canes. Plant in rows five feet apart, three feet apart in rows.

Red Varieties

St. Regis Everbearing—A wonderful new variety of Red Raspberry, bears fruit the first season, bears for four months beginning about June fifteenth. The second crop of berries is borne on the ends of the new canes and ripens about the middle of August and continues until frost.

Cuthbert—Large, conical; deep rich crimson; firm, of excellent quality. Vigorous grower, entirely hardy and immensely productive. The best raspberry for general culture.

Marlboro—The best early red raspberry. Hardy and productive.

London—Ripens with the earliest and hangs to the last. Immensely productive and a fine shipper. Very hardy and does not sucker nearly so much as other red raspberries.

ST. REGIS RASPBERRY

Wholesale Price for all varieties of Raspberries by express, Strong Plants, 10 for \$1.00, 25 for \$1.50, 100 for \$5.00, 1000 for \$25.00.

KANSAS BLACK RASPBERRY

Black Varieties

Black Diamond—One of the best for home and market use. For drying and evaporating it excels all others. The fruit is large and handsome.

Cumberland—Plants vigorous, hardy and productive; fruit large. Mid-season.

Gregg—Plants vigorous, hardy and productive; fruit above medium to very large.

Kansas—Largest size, strong, vigorous grower, hardy bearing immense crops. Size of Gregg.

Plum Farmer—Berry large and very productive, a great favorite in Western New York. A fine picker and one of the best market sorts.

Ohio—A very strong growing hardy sort; fruit nearly as large as Mammoth Cluster; more productive.

Purple Varieties

Columbian—Very large, often an inch in diameter; adheres firmly to stem and will dry on the bush if not picked.

Propagated Where the Best Trees Grow

Select Varieties of Blackberries

This profitable fruit should be planted for garden use in rows five feet apart, with plants three feet apart in rows; for market, in rows six feet apart, with plants three feet apart in the rows. Give the plants the same cultivation as for raspberries.

THE HARDY ELDORADO BLACKBERRY

Eldorado—The best all-round berry yet produced, combining nearly all the good qualities found in a blackberry. The vines are very hardy and vigorous, enduring the winters of the far Northwest without injury, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

Snyder—Extremely hardy; enormously productive; medium size.

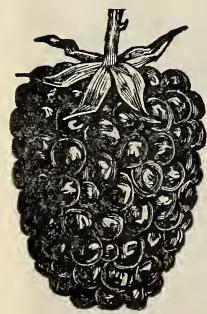

Wilson's Early—Large size, black, quite firm, rich, sweet and good. Ripens early and matures its fruit rapidly.

Minniewaska — Wonderful, hardy, productive, good blackberry, has not been forgotten by us, or our old patrons. Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness. The secret of its great productiveness, is that it is an enormous grower. A large grower near Rochester states that his average receipts from an acre of Minniewaska blackberries has been \$300 per year for the past five years.

Early Harvest—The earliest blackberry and valuable for market. The canes are strong and upright in growth and enormously productive. Berries sweet and of the highest quality.

Erie—Bush vigorous; berry large, round; good quality; early and productive.

Wholesale Price for all varieties of Blackberries (by express) Strong Plants, 10 for \$1.00, 25 for \$2.00, 100 for \$5.25, 1000 for \$37.50.

Agawam—Ripens earlier than other kinds, and has a flavor similar and equal to the wild berry. Very hardy.

Ancient Briton—Bush hardy and very productive. One of the best old sorts, and still grown in immense quantities by successful market gardeners.

Blower—Large size, jet black, good shipper, best quality, unexcelled productiveness are the main characteristics of this splendid new sort.

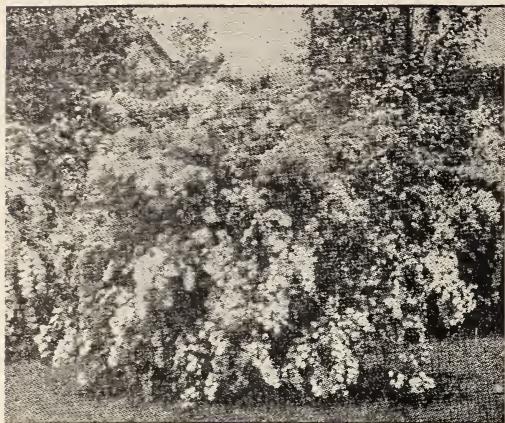

Rathbun—Bush perfectly healthy, vigorous, but not a high growing sort; very rarely suckers from the roots. Fruit of largest size, highest quality, borne in great profusion.

Lawton—Very large, excellent quality, and an abundant bearer.

Kittatinny—At one time this was the most popular of all Blackberries. It is still first-rate for garden use, and in some localities for market. Berries large; canes strong in growth; productive.

Ward—A new Blackberry of great merit. A seedling of Kittatinny, which it resembles somewhat, having the good qualities of its parent and none of the defects. A very strong grower; it is perfectly hardy at its home in New Jersey. The fruit is black throughout and very prolific, firm and good for shipment.

HEDGE OF CALIFORNIA PRIVET

If you do not find the varieties of Ornamental Trees and Flowering Shrubs needed write for special quotations.

Buying Choice Trees and Plants by Parcel Post

It is easier to buy by mail than to go to a store. In many instances it is possible to buy a better quality of trees and plants by mail than can be procured in other ways.

The greater portion of our business is transacted through the mails. The planter in California can purchase with as great an assurance of satisfaction as if he personally selected his trees and plants.

Trees and Plants ordered are personally selected. One from our office, who has spent an entire lifetime in the business, carefully selects the trees and plants and follows instructions closely.

Our method of packing enables us to ship to remote sections with great success. We believe that we give more attention to digging and packing than is customary.

Our Mail Order Trees and Plants are flourishing in localities where the smoke of the railroad engine is never seen, and at other distant points where railroad charges would deter you from ordering.

Varieties of Trees and Plants—By Parcel Post Postpaid

Apple Trees by Parcel Post

For this season's mailing we have an extra fine block of one year old trees. Such trees that every buyer will be pleased with. The varieties are: Northern Spy, Yellow Transparent, Wealthy, Baldwin, York Imperial, Duchess, Wagener, King, Jonathan, McIntosh, Banana and Delicious.

Parcel Post Price of Apple Trees 3 ft. high, 50c each, 10 for \$4.85.

Standard Pear Trees

We have by a special method grown some mailing size trees of a few varieties as follows: Bartlett, Kieffer, Clapp's Favorite, Seckel and Flemish Beauty.

Parcel Post Price of Pear Trees 3 ft. high 75c each, 10 for \$6.50.

Cherry Trees

For this season we can dig some extra fine mailing size trees, very strong, well rooted trees, of varieties as follows: Early Richmond, Morency, English Morello, Dyehouse, Windsor, Napoleon and Black Tartarian.

Parcel Post Price of Cherry Trees 2 to 3 ft. high 85c each, 10 for \$7.50.

Dwarf Pear Trees

We can supply the following varieties: Duchess, Seckel, Clapp's Favorite, and Bartlett.

Parcel Post Price of Dwarf Pear Trees, 2 to 3 feet high 55c each, 10 for \$5.00.

Plum Trees

Plum trees generally grow so heavy at one year old that it is impossible to get mailing size trees, but we have some nice trees, strong, heavy rooted, three feet high, of varieties as follows: Abundance, Burbank, Climax, Red June, Wickson.

Parcel Post Price of Plum Trees 3 ft. high 60c each, 10 for \$5.50.

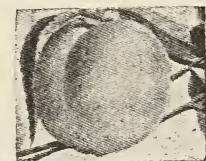

Raspberries—All varieties offered in catalogue by Parcel Post at 10 for \$1.15.

Blackberries—All varieties offered in catalogue by Parcel Post at 10 for \$1.25.

ORNAMENTAL SHRUBS, ROSES AND VINES—Strong, well rooted bushes of all varieties offered can be sent by Parcel Post if 3 CENTS EXTRA IS ADDED TO EACH PRICE QUOTED IN THIS CATALOGUE.

Peach Trees

We offer varieties of mailing size peach trees as follows: Niagara, Elberta, Early and Late Crawford, Champion, Carman, Fitzgerald, Reev's Fav., Chair's Choice, Greensboro, Kalamazoo and Crosby.

Parcel Post Price of Peach Trees 2 to 3 ft. high 50c each, 10 for \$4.50.

Quince Trees

We offer three varieties of mailing size quince trees: Orange, Bourgeat and Champion. Very strong, heavily rooted, 2 to 3 feet.

Parcel Post Price 65c each, 10 for \$6.00.

Dwarf Apple Trees

Our list of varieties is: Delicious, McIntosh, Baldwin, Grimes' Golden, Wealthy and Yellow Transparent.

Parcel Post Price for Dwarf Apple Trees 2 to 3 feet high 70c each, 10 for \$6.50.

Grape Vines

Worden. A splendid black grape.

Moore's Early (Black.) Bunch and berry large, round with heavy blue bloom.

Concord. Bunch large, compact, berries large.

Brighton. The best red grape in cultivation.

Diamond. Leading early white grape.

Niagara. Occupies the same position among white varieties as Concord among black.

Parcel Post Price of Grape Vines 1 yr., 35c each, 10 for \$3.25.
